Attorneys At Law

Fair housing is the right to choose housing free from unlawful discrimination. As a Landlord, or property manager, this means you must treat people equally and make reasonable accommodations for persons with disabilities. Federal Fair Housing laws protect people from discrimination based on race, color, national origin, sex/gender, religion, handicap/disability and family status. In addition, different districts have supplementary protected classes. It is important to know the four fair housing fundamentals. Discrimination can be subtle. You might not even be aware of your actions. The Landlord Representation Group attorneys at Offit Kurman can help you navigate through all Fair Housing laws.
