Comprehensive Legal Services

Offit Kurman is one of the fastest-growing, full-service law firms in the United States. With over 230 attorneys offering a comprehensive range of services in virtually every legal category, the firm is well-positioned to meet dynamic businesses' needs, as well as the needs of the people who own and operate them. We also provide representation of individuals and families in diverse matters ranging from estate planning and asset protection to intellectual property structuring and entrepreneurial start-ups.

Our International Group provides clients with a broad range of services for transactions and dispute representation for clients worldwide, including Europe, Canada, Asia, Latin America, the Middle East and Africa. With our attorneys' assistance, companies and individuals based outside of the U.S. develop creative solutions for planning and implementing U.S. strategies. Many of our International Group members are admitted to practice in other countries' legal systems. Our attorneys also have extensive experience conducting complex international commercial litigation and dispute resolution proceedings in state and federal courts, including bankruptcy courts, and in domestic and international arbitration proceedings. We also assist clients in resolving disputes through mediation and alternative dispute resolution proceedings. In an evolving world, Offit Kurman's professional advice can play a key role in building and safeguarding a client's international businesses and investments.

At Offit Kurman, we are our clients' most trusted legal advisors, professionals who help maximize and protect business value and personal wealth. In every interaction, we focus on furthering our clients' objectives and provide timely services and within budget, all while focusing on the clients' interests and goals.

At Offit Kurman, we distinguish ourselves by the quality, breadth, and global reach of our legal services — as well as our unique operational structure, which encourages a culture of collaboration and entrepreneurialism. The same approach that makes our firm attractive to legal practitioners interested in representing clients in the middle market, also gives clients access to experienced counsel in almost every area of the law and in many jurisdictions in the U.S. and abroad.
