

Firm History

Attorneys At Law Since 1987

Established just outside of Baltimore, Maryland in 1987, Offit Kurman Attorneys At Law began as a niche-practice law firm. From day one, the firm's focus has been on proactively protecting the concerns of privately held businesses as well as the people who own and operate them. Today that commitment continues with a special emphasis on establishing and nurturing long-term legal advisory relationships with every single client.

We take a strategic approach to growth, expanding into a wide range of practice areas over the years as demand for our unique legal services has increased. As our reputation for proactive client-focused results has spread and demand across the marketplace has exploded in response, we've continued that expansion in order to stay ahead of our clients' legal needs.

Today, Offit Kurman Attorneys At Law is a dynamic legal services provider with clients throughout the mid-Atlantic region and beyond. Our comprehensive array of legal services includes commercial litigation, business law, real estate law, intellectual property, labor and employment, construction law, estate planning, asset protection, elder law, and more.

While the story of our growth is a remarkable one, we're most proud of the relationships our team of top-notch attorneys has built with each individual client over the years. Relationships built on a strong foundation of trust, knowledge, and confidence.

To learn more about the tradition of legal expertise that separates Offit Kurman Attorneys At Law from the rest, contact us to schedule a consultation.
