Protecting Policyholders' Rights

Offit Kurman Attorneys At Law Insurance Recovery Group is committed to protecting you against risk exposure and, in the event of a loss, ensuring you receive the compensation you are rightfully due. Our insurance recovery attorneys assist both businesses and individuals, identifying available insurance coverage to pay your claim and recovering what you are owed by your insurance company.

Our proactive approach starts with providing a realistic analysis of the claim. We then work to develop a customized strategy appropriate for your specific case so as to provide you with the most cost-effective and cost appropriate representation possible. In most cases, we're able to assist you in negotiating a business resolution. Should negotiations break down, our team of seasoned insurance recovery attorneys has the insurance litigation experience and expertise necessary to successfully see the matter through trial.

Conflict Free

Offit Kurman Insurance Recovery Group exclusively represents policyholders. When facing an actual or potential dispute with your insurance company, it is crucial to have a partner by your side who understands your business and has only your best interests in mind. That partner is Offit Kurman Attorneys At Law.

In situations where you are sued, the insurance company is usually obligated to retain an attorney on your behalf. This attorney may have an ongoing relationship with the insurance company, a relationship that is often problematic. If that is the case, we work with you to closely monitor this complex relationship to make sure that the attorney designated to defend you by your insurance company is acting to protect your interest and not the interest of The Insurance Company.
