What We Do

In business, there are a number of tax matters to consider throughout your company's life cycle: choice of entity, admission of new equity, participation for management, mergers and acquisitions, transfers to the next generation, and the potential sale of the business.

In estate planning, federal and state tax minimization is a major consideration and is complicated by ever-changing laws. Tax issues tend to arise in labor & employment and commercial litigation as well. When they do, the attorneys at Offit Kurman are standing by ready to offer the tax consulting expertise you need.

How We Do It

Understanding your needs and developing tailored tax solutions to meet those needs is at the heart of everything we do. Our tax attorneys have experience structuring deals to minimize tax consequences, working closely with you and your accountants to ensure that the proposed tax strategies provide the most tax-efficient end results. We understand that every client and business is different, and we work closely with you to understand where you have been, where you are going, and how to get there with the minimum tax cost.
